SUBJECT: Cost Proposal for TD-1023A - Display of Roll and Pitch Attitude Data
 25X1A in the Data Block

25X1A

25X1A

As a result of TWX [REDACTED] 6283 dated 17 January 1963, which details the requirement to incorporate this display and TWX's [REDACTED] 2677 dated 19 January 1963, [REDACTED] 2251 dated 25 January 1963, and [REDACTED] 0277 dated 4 February 1963, which provide [REDACTED] concurrences with that TD, enclosed are two (2) copies of our cost proposal.

25X1A

25X1A

25X1A

[REDACTED] TWX 386 dated 1 February 1963, which responded to the above TWX's, is a part of this proposal and stated the following applicable information:

"Every effort will be made to incorporate in L-1 using kit to be sent to the field.

"Copies of Drawing 43704 - Format Drawing will be formally distributed shortly.

25X1A

"This change has a relatively significant effect on ground support equipment which will be fixed in the field by kit as well as in Boston.

[REDACTED] requires three (3) pounds of additional weight and 6 watts of 400 cycle power. Other power increases are negligible."

25X1A

25X1A

The proposal indicates a total estimated cost of [REDACTED] fee of [REDACTED] for a total C.P.I.F. value of [REDACTED] 25X1A

We trust this proposal will meet with your approval.

Very truly yours,

25X1A

TO: [REDACTED] STATINTL

SUBJECT: Cost Proposal for TD-1010

As a result of the execution of TD-1010 and discussions at the SE meeting 16 January 1963, enclosed are two (2) copies each of our cost proposal for the work contained in the TD.

STATINTL
TWX [REDACTED] 256 dated 4 December 1962 presumed that paragraphs 2A and 2B only were being considered by this change and that paragraph 2C was not authorized at that time. However, at the SE meeting, we were given firm direction to include paragraph 2C. TD paragraph 1.3 refers to the provision of shape factors by the associate. We are proceeding in accordance with the data contained in the memorandum to [REDACTED] from [REDACTED] dated 19 October 1962, the subject of which is "V/h RAMPs FOR LANYARD." STATINTL

STATINTL
We are making every effort to accomplish the field retrofit in L-1 prior to flight. However, we cannot guarantee this change on that unit. The other units will have the change incorporated.

STATINTL
For the above reasons the work involved includes the "third requirement" referenced in paragraph 4 and the proposal indicates a total estimated cost of [REDACTED] for a total C.P.I.F. value of [REDACTED] STATINTL

We trust this proposal will meet with your approval.

Very truly yours,
STATINTL
